Commercial Photoshop Retouching
In the Studio

A Guide to Professional Photo Retouching and Compositing

Glenn Honiball
Index

A
anchoring objects with shadows, 36
angle of shadow, 37

B
backgrounds
bleeds, 102
extending, 102–113
bricks, 105–107
sky, 102–103
vanishing point and, 107–113
newsprint quality images, 225–232
replacing, object selection and, 171
shadows, retaining, 33–42
background necessary for career, 11
banding, noise and, 27
billboards, resolution, 186
black to white color change, 73
bleeds
background, 102
spec sheets, packaging
materials, 236
blurs, motion in cars, 89
bricks, extending background, 105–107
brightness, 67–69
brushes
Clone brush, 60
History brush, 46–49
mask mode, 46
noise addition, 27
Brush tool, masks, 164

C
calibrating monitor, 4
Canvas size dialog box, 173
cars, motion, 89–94
channels
color
texture, 51–52
touch plates and, 125
merging, 133
Channels palette, touch plates and, 125
Channel Mixer tool
color changing and, 71
texture, shape, 53
Channel palette, 56
Chromacom system, 2
circular shapes, Pen tool and clipping paths, 158
clipping paths
generating, 156
image merging and, 156
Lasso tool, 161
Pen tool, circular shapes, 158
Clone brush, 60
Clone tool, 59
cloth and, 62
cloning
Clone brush, 60
faces, 60–61
cloth
Clone tool and, 62
moire pattern and, 63
texture, 62–64
CMYK color, 5
  converting to special color, 133–135
  merging spot color into, 132–133
CMYK images
  neutralizing, 66–67
  newsprint image quality, 211–230
  ink values, 211–215
  original colors, 215–216
  packaging material preparation, 239–252
Coco plug-ins, 58
coffee cup steam, 81
color
  changing, 70–78
    black to white, 73
    white to black, 76
  channels, merging, 133
CMYK, 5
  converting to special color, 133–153
dirty, 67
duotones, 147
  creating, 147–151
  fake, 151–152
  enlarging and, 203
  four-color images, changing to three color, 136–153
  individual color channels, texture, 51–52
  inks, 123
  overall, changing, 147–153
  packaging materials, 247–249
  special color, 249–250
PMS (Pantone Matching System), 123
profiles, custom, 6
quadtones, 147
  resolution and, 203
RGB, 5
shadows, 20
special color, 123
  convert CMYK color to, 133–135
spectrophotometer, 6
  spec sheets, 183
spot color, merging into CMYK, 132–135
swatch books, 5
touch plates, 123–131
  trap, 140–146
  tritones, 147

color by the numbers, 5
color correction, converting color to grayscale and, 232
color images
  black and white
    newspaper, 230–232
  convert to grayscale, 230
Color Libraries, touch plate and, 125
color profile, print, 4
Color Range tool
  object selection, 166–168
  color settings, CMYK images in newsprint, 213
composition, 174–176
deadlines, 10
demos, 6
digital cameras, scanners and, 8
directional steam, 84–86
  dirty color, 67
  dot gain
    packaging materials
      minimum dot, 241–247
    spec sheet, 237–240
    scooping, 238
    spec sheets, 207
    minimum required, 184
    packaging materials, 236
duotones, 147
  creating, 147–151
  fake, 151–152
Duotone Options dialog box, 148–151
duplicating layers, corrections and, 43
DVD/CD burner, 6
G
Gaussian blur
moire pattern and, 63
object selection, 171
shadows, 32
Gaussian setting, Noise dialog box, 61
graininess, enlarging and, 199–202
gray scale images
convert from color, 230
texture, shape, 55–57
grid, Arrow tool and, 109
grounding objects with shadows, 36

H
hair example of object selection, 166–171
halos, shadow softening and, 22
halving effect, shadows and, 24
hammer swinging, 99–101
hardware, 3–4
backup drive, 6
DVD/CD burner, 6
monitors, 4–5
printers, 4–5
scanner, 6
highlights
newsprint quality images, 218–232
shiny surfaces, 114–121
very shiny finishes, 115–117
History brush
attributes, 48
corrections, 46–49
history of retouching, 2
Photoshop and, 3
Hue and Saturation tool, 67
Saturation slider, 68

I
